Trading Update - 02 September 2020

Computacenter plc ("**Computacenter**" or the "**Group**"), a leading independent technology partner trusted by large corporate and public sector organisations, today publishes a trading update, based on unaudited financial information, for the period to 31 August 2020.

The successful trading performance seen in the first half of the year has continued for the first two months of the second half. As we consolidate our forecasts for the rest of the year, it has become clear to the Board that the likely out turn for the year as a whole will be materially above the Board's previous expectations as set out in the Group's Trading Update Statement announced on 22 July 2020.

We will set out more details at the time of our Interim Results on Wednesday 9 September.
