FOR IMMEDIATE RELEASE

**FY2022 results revised date; guidance unchanged**

Computacenter plc ("**Computacenter**" or the "**Group**"), a leading independent technology partner trusted by large corporate and public sector organisations, today announces a revised date for the publication of its preliminary financial results for the year ended 31 December 2022. The Group's auditor, KPMG LLP has requested additional time to complete its standard audit procedures in relation to one of Computacenter's US subsidiaries and, as a result, the Group will now announce its results by 31 March 2023, meaning a delay to the previously planned release date of 20 March 2023.

The Board confirms that the 2022 financial performance is expected to be in line with the trading update provided on 30 January 2023, which will result in an eighteenth consecutive year of underlying\* adjusted diluted earnings per share growth.

For the avoidance of doubt, Computacenter also confirms that it has no exposure to Silicon Valley Bank.

\* As described on pages 72 to 73 of our 2021 Annual Report and Accounts, several one-off tax items were processed during the second half of 2021 that substantially reduced the tax charge, and therefore the adjusted ETR, for the year as a whole. These one-off items are excluded from our internal underlying adjusted diluted earnings per share measure which is used for measuring our progress against LTIP performance conditions. Had the one-off items not impacted during 2021, the underlying adjusted<sup>1</sup> diluted EPS for 2021 would have been 160.9 pence per share.
