RNS Number:3453I  
Computacenter PLC  
23 November 2007

The Board has decided to implement a limited [share buyback](#) programme, within the authority granted to it by shareholders at the Annual General Meeting in May 2007. The Board considers that the recent weakness in the [share price](#) has provided an attractive opportunity for the Company to purchase its own shares for cancellation. The Board expects that purchases will continue to be made by the Company on an opportunistic basis.

The company purchased 50,000 shares for cancellation on 22 November 2007 at an average share price of 166.7p. Following the above purchases the total number of ordinary shares in issue is 159,774,015. The Company does not hold any shares in Treasury.
